ABOUT ME

Full Stack Software Engineer pursuing an M.S. in Computer Science with experience building scalable web applications, backend services, and AI-powered systems. Skilled in React, Next.js, TypeScript, Node.js, Python, and databases, with a passion for developing reliable, user-focused products using modern software and AI technologies.

EDUCATION

Master of Science in Computer Science

San Francisco Bay University | 2024-2026

B.E.(Hons) in Computer Science and Engineering

Myanmar Institute of Information Technology| 2015 -2022

EXPERIENCES

Freelance Full Stack Developer

Freelance| 2023-2024

- Built responsive websites and web applications for businesses using React, Next.js, Node.js, and MongoDB.
- Developed reusable UI components and backend services to improve application maintainability.
- Managed the full development lifecycle, including design, development, testing, and deployment.

Full Stack Developer

Trailblazer Co.,Ltd| 2022 - 2023

- Developed full-stack web applications using React, Node.js, Express.js, and Sequelize.
- Built and integrated RESTful APIs to support frontend applications and business workflows.
- Designed database schemas and optimized data access using SQL-based technologies.
- Collaborated with developers to implement scalable microservice-based solutions.

Odoo Developer

Seattle Consulting Myanmar Co.,Ltd| 2019 - 2020

- Customized Odoo ERP modules using Python, JavaScript, XML, and PostgreSQL.

Edge AI Robotics Framework

University Capstone Project| 2025 - 2026

Python | Raspberry Pi | Arduino | AI/LLM

- Built a modular edge-server robotics framework with real-time perception, autonomous navigation, voice interaction, and AI-driven decision making.
- Integrated edge computing, embedded hardware, and server-side AI reasoning to support intelligent robot applications across multiple domains.

SKILLS

Languages : JavaScript, TypeScript, Python, Java, C++

Technologies : React, Next.js, Node.js, Express.js, REST APIs, Microservices

Databases: MongoDB, PostgreSQL, MySQL, Sequelize

Tools: Git, GitHub, Docker, Postman, Linux, AWS

AI: AI Systems, Generative AI Concepts, LLM Applications, AI Integration, Edge AI, ML Fundamentals
